

Farm PEP is a Knowledge Exchange Platform to generate, connect, distill and share Agricultural Knowledge

Help us turn Farm PEP into a Community resource and register below.

[Sign up](#)

How does Farm PEP work?

FarmPEP connects people, organisations, projects and knowledge across agriculture. You can browse or search by clicking on the icons below. Join and login to like, follow and connect, to add your organisation and projects, to add useful content, to ask questions and comment, and to form and join Groups.

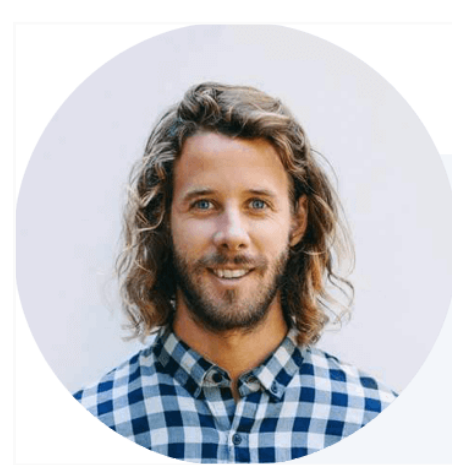

Everything in FarmPEP is connected by Topics - we aim to create a community of independent Stewards to provide distilled summaries for each Topic, and to recommend the most useful resources to find out more.

Be part of our community

Sign up now to like & follow content, ask questions, provide comments, tell people about yourself, your organisation and your projects, or to form new Groups to discuss ideas and share experiences.

“ We’ve created Farm-PEP with support from Innovate UK co-designing with a wide set of stakeholders... Now let’s develop it in to a really useful community where we generate and share knowledge together. ”
