Overview for the interpretation of monitoring results					
Infestation level	MMS (mean score)	Stick traps (mean score)	Tape traps (% of positive traps)	Cardboard traps (mean counts)	AviVet Red Mite Trap (mean weight in mg)
Low	< 1	< 1	< 20%	< 250	≤ 50 mg
Medium	1 - 2	1 - 2	20 - 50%	251 - 500	51 - 250 mg
High	> 2	> 2	> 50%	> 500	> 250 mg

TIP: Compare with previous results to see the evolution of red mite infestation in your poultry house
