

**The Institute of Agricultural Management (IAgrM) is the professional body promoting continuing professional development for those engaged in agricultural, rural and environmental management**

**IAgrM is a registered charity and our charitable objectives are**

- to promote high standards in the practice and business of management in agriculture
- to promote training in all aspects of management in agriculture
- to encourage the provision and attainment of professional qualifications in the principles and practice of management of agriculture

# WHAT DOES THE INSTITUTE DO?

- UK agriculture is justifiably recognised for achieving first class standards. At the heart of this must be continuous development of the skills base and standards of those managing farm businesses.
- Through its training and education the Institute is at the forefront of helping all those involved with the management of land the opportunity to demonstrate their commitment and professionalism.
- The Institute is the only organisation committed to promoting and developing the professionalism of farm business management, providing a unique series of opportunities for personal and career development

# HOW DOES THE INSTITUTE DO THIS?

**1**

**BY CREATING CONNECTIONS**

**2**

**BY PROMOTING PROFESSIONALISM**

**3**

**BY ENCOURAGING EDUCATION**
